Dear Mr. Loh Hock Chiang,

**CONGRATULATIONS ON YOUR COMPANY'S INCLUSION INTO THE BURSA MALAYSIA
QUALITY INDEXES**

Bursa Malaysia is pleased to inform you that **Aurelius Technologies Berhad** has been selected as a constituent of the **Bursa Malaysia Quality 50 Index (BMQ)** as well as its shariah variant, the **Bursa Malaysia Quality 50 Shariah Index (BMQ-S)**.

The indexes, launched recently on 12 January 2026, recognises listed companies that demonstrate superior financial quality, assessed using key quantitative measures including Return on Equity, Debt to Equity ratio, and Operating Cash Flow strength relative to Profit After Tax and Minority Interests. These core metrics highlight financial discipline, sustainable earnings, and overall resilience.

As investor interest grows in systematic, factor-based strategies, companies within the Quality Index benefit from:

- Increased visibility among institutional and quantitative investors searching for quality driven outperformance.
- Enhanced market credibility, backed by a transparent and rules-based methodology.
- Access to a broader investor base, particularly among investors who look beyond headline benchmarks like the FBMKLCI.
- Regular reaffirmation of financial strength, reinforcing market confidence.
- Strengthened visibility via targeted Bursa initiatives, including digital amplification, key roadshows, issuer spotlights, webinars and focused knowledge-sharing.

The indexes are **reviewed semi-annually in June and December, based on data as of the last trading day of the preceding month**, ensuring that they remain relevant, investable, and current.

Once again, congratulations on this significant milestone. Your inclusion in the BMQ and BMQ-S underscores your company's strong fundamentals and positions it prominently within Malaysia's evolving landscape of financially robust and well managed corporates
